

Items List

This box should contain only 13 items (including what is in the vial). Please make sure that they are all back in here at the end of the lab:

1. A small orange digital multimeter with two wires (the ends of the wires are alligator clip types.)
2. An analogue voltmeter with two wires (both ends stripped and already attached to the meter.) The other ends of the wires are banana jack types.
3. An analogue ammeter
4. A light bulb attached to a wooden holder
5. A resistor attached to a wooden holder
6. A diode inside a vial
7. Three wires with banana jack ends
8. Two alligator clips inside a vial.
